(Examiner/SPE Signature) (Applicant/Applicant's Representative Signature – if appropriate)					

Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner indicated that the amendment to claim 21 in the response filed 10/11/06 overcomes the prior art rejections made in the office action dated 6/15/06. the examiner also noted that claims 14, 15 and 21 were still unpatentable over EP 992,605 and US 6,280,792, which appear to be commonly owned with the present application. EP 992,605 was published prior to the effective US filing date of the present applicantion, and US 6,280,792 has a US filing date prior to the effective filing date of the present aplication. The examiner noted that it appeared that a rejection over these references could be overcome if applicants were able to perfect their claim for foreign priority by submitting certified translations of their two earliest foreign priority documents. Mr. Kratz indicated that he would check the possibility of perfecting the claim for foreign priority.
